Foreword

The *Kansas County Profile Report* is published annually by the Kansas Center for Community Economic Development at the University of Kansas. Special thanks to Xanthippe Wedel, information specialist with the Policy Research Institute (PRI) at the University of Kansas, who compiles and updates the county profiles.

County reports can be generated for any county in Kansas by simply clicking on the county from the web site:

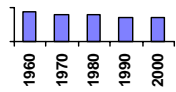

<http://www.ku.edu/pri/ksdata/kcced/profiles/index.shtml>

Although a hard copy of the report is no longer available for purchase, please feel free to print your own copy or copies. By publishing the report in this format, the KCCED and PRI has made this collection of statistics available for free to users around the world.

Users may access the document as frequently as needed, print single pages, sections, or the entire report, or download the file directly to a computer or disk for fast and convenient access.

We are always looking for ways to improve the *Kansas County Profile Report* and we welcome your suggestions and comments. Please address any correspondence to the Policy Research Institute, The University of Kansas, 607 Blake Hall, 1541 Lilac Lane, Lawrence, Kansas 66044-3177, e-mail pri@ku.edu or call 785-864-3701.

County: county value. Kansas: state value. County Rank: highest county value ranked #1. (\$000): thousands of dollars. Nonmetro Kansas: Kansas total less Metropolitan Areas as defined by the Office of Management and Budget (OMB; released 2/18/2004). Per 1000: For non-money amounts, Per 1000=(County value / County population for the same year as the data) x 1000. \$PerCapita: (computed in dollars=(county value / county population for the same year as the data). Note: Value = . means missing or suppressed data or value not calculated. Prior to 2001 Bureau of Economic Analysis data were released using the Standard Industry Classification (SIC) system. Beginning in 2001 these data were released using the North American Industry Classification System (NAICS), therefore any comparison to prior years is unavailable. For more information on these classification systems, please refer to <http://www.census.gov>.

County: county value. Kansas: state value. County Rank: highest county value ranked #1. (\$000): thousands of dollars. Nonmetro Kansas: Kansas total less Metropolitan Areas as defined by the Office of Management and Budget (OMB; released 2/18/2004). Per 1000: For non-money amounts, Per 1000=(County value / County population for the same year as the data) x 1000. \$PerCapita: (computed in dollars=(county value / county population for the same year as the data). Note: Value = . means missing or suppressed data or value not calculated. Prior to 2001 Bureau of Economic Analysis data were released using the Standard Industry Classification (SIC) system. Beginning in 2001 these data were released using the North American Industry Classification System (NAICS), therefore any comparison to prior years is unavailable. For more information on these classification systems, please refer to <http://www.census.gov>.
